VANDERLEI VIDOR

Software Engineer | Product Engineering | Full Stack & AI

Chapecó, SC, Brazil • vanderleividor1@gmail.com • Portfolio • LinkedIn • GitHub

PROFILE

Software Engineer focused on product engineering, cross-platform applications, AI systems, and full-stack development. I build end-to-end digital products with emphasis on software architecture, performance, maintainability, accessibility, and user experience. Before transitioning into technology, I spent more than 12 years in sales, management, and customer-facing roles, bringing a practical product and business perspective to software decisions.

CORE STACK

Languages: Dart, TypeScript, Java, Python | **Frontend & Mobile:** Flutter, React, Next.js | **Backend & Data:** Spring Boot, FastAPI, PostgreSQL, SQLite

EXPERIENCE

Software Engineer | Self-Employed / Independent Projects — **Jan 2024 - Present**

Brazil

- Design and build end-to-end software products across mobile, web, backend, and AI systems.
- Focus on clean architecture, maintainability, performance, accessibility, testing, and reliable delivery.
- Translate real-world product needs into practical technical solutions, combining engineering execution with business context.

SELECTED PROJECTS

AI Polyglot Tutor - Multilingual learning platform with an authoritative Teacher Brain, deterministic grammar providers, persistent learning memory, conversational AI, and an evolving speech and pronunciation analysis architecture.

Music Player Premium - Local-first Flutter audio application with an abstracted audio-engine architecture, format and capability detection, DSP processing, technical diagnostics, lifecycle resilience, and hardware-oriented validation.

Portfolio Nexus - Multilingual Next.js engineering portfolio with structured case studies, accessible motion, static generation, performance validation, and evidence-driven technical storytelling.

Task Manager Pro - Full-stack Java/Spring Boot platform with PostgreSQL, authentication, backend-enforced data isolation, reporting, analytics, and automated testing.

EDUCATION

Higher Education Technology Degree, Systems Analysis and Development | UNINTER Centro Universitário Internacional | Jul 2021 - Dec 2023

Higher Education Technology Degree, Technology in Management Processes | Universidade do Vale do Rio dos Sinos | Jul 2010 - Jan 2016

Open to remote Software Engineering and Product Engineering opportunities worldwide.
